

Section 111 and 112 of the Clean Air Act as it applies to NR 406

Jeffrey Hanson
WDNR
April 16, 2002

Specific Category of Exempt Sources

- Source characteristic based
- Entire project must qualify
- Cannot be major for Federal HAPs

General Category of Exempt Sources

- Emission Based
- Source being constructed/modified cannot be subject to standard under 111 or 112

Exclusions from Modification

- Modification = Change that results in emissions increase
- Other changes - 406.04(4)(h)
 - Not prohibited by permit
 - Increase in emissions less than General Exemption thresholds
 - Does not trigger 111 or 112 applicability
